

Key: 6 – rectus femoris  
 8 – vastus lateralis  
 9 – vastus medialis  
 13 – Sartorius

Directions: Cut out each image and glue to a separate note card or piece of card stock. Color one structure on each diagram and label it on the back of the card. Look up the origin, insertion, and principle action of the structure if it is a muscle and write it on the back of the card under the name. If the structure is a blood vessel or nerve, look up and write the function of that structure.

Key: 8 – gracilis (muscle)  
 8 – femoral artery (blood vessel)  
 10 – femoral vein (blood vessel)
